

# Fast Track Your Career

Have you obtained a trade qualification some time ago and are now wanting to fast track your career into a management role?

Let us help you achieve your career aspirations. We can assist you to update your computer skills – learn how to write formulae in Microsoft Excel, create award winning presentations using PowerPoint, and write concise and articulate business reports using Microsoft Word.

Empower yourself and learn how to motivate your team. Ensure your workers are safe by conducting hazard and risk assessments. Learn about what drives consumers to purchase your goods and services.

The Australian Academy of Business offers tailored practical learning solutions with training at your workplace at a time convenient to you. Training attracts lucrative Government Incentives (subject to eligibility

criteria) which can be cash flow positive for your business.

Tired of your current job and want to make the next move to your management career? Call The Australian Academy of Business today: we are here to give you a step-up in the right direction.
