

A smart solution

Smart Employment Solutions, recognised as a leader in employment and training since 1986, offers automotive industry employers a comprehensive range of personnel recruitment and business services in addition to providing excellent apprentices and trainees.

For the past 25 years the company has been assisting apprentices/trainees and employers with support, knowledge and advice with regards to employment – ensuring that candidates are well suited for the role when presenting them to employers.

Smart Employment Solutions works with the apprentices/trainees that they provide to guide them throughout their college and work requirements and are available to answer any questions or concerns from the employer.

Bremer Ford obtained the services of Smart Employment Solutions in acquiring apprentice Evan Sides in July 2009.

“Our criteria was that the apprentice had to be respectful, honest, have commitment and a genuine desire to succeed in a career, not just a job,” said Bremer’s Fixed Operations Manger, Gary Dover.

“We maintain that if the apprentice possesses these qualities, we’ll do the rest because we are committed to turning a young 1st year apprentice into a quality tradesman,” he added.

Dover said that Bremer Ford was ‘blessed’ to have been given the apprentice,

Award winning apprentice Evan Sides

Dover said that Bremer Ford was ‘blessed’ to have been given the apprentice, because from the beginning of the placement Evan Sides “has shown great promise and will in time play a major part in elevating future apprentices to achieve the same goals that he has.”

because from the beginning of the placement Evan Sides “has shown great promise and will in time play a major part in elevating future apprentices to achieve the same goals that he has”.

Evan’s commitment and enthusiasm in the job won him Smart Employment Solutions’ Apprentice of the Year award.

To supplement the placement of apprentices, MIT (MTA Institute of Technology) provides on site technical training leading to a qualification. Whilst employed by the business, an MIT technical trainer would visit the apprentice on regular visits to take the apprentice through the workbooks and practical applications of what is being learned.

As the most dominant vocational, education and training provider in Queensland, MIT brings innovation and inspiration to every apprentice through training excellence, resulting in outstanding technicians and tomorrow’s leaders in the industry.

Step 1 – To find an apprentice, telephone Smart Employment Solutions on 13 30 24

Step 2 – After Employers take on an apprentice, telephone MIT on 1 800 884 137 to make arrangements to have the apprentice visited at the work place to go through a program leading to a qualification
